RECORD OF INTERVIEW – REPLY TO INTERVIEW SUMMARY

HONORABLE SIR:

Responsive to the Interview Summary dated February 18, 2010, the legal representative for the applicant submits the following reply which supplements the substance of the interview.

It is not believed that extensions of time are required beyond those, which may otherwise be provided for in documents accompanying this Amendment.

### ***Reply to Interview Summary***

In the Interview Summary that Patent Examiner Faruk Hamza entered into the record, the Substance of Interview accurately reports that applicant's representative filed the response to the 5/29/09 office action on 11/30/09 and further indicates that the amendment failed to be entered into PALM. During the interview, applicant's representative also particularly noted that the response was filed on the first business day immediately following a Sunday in accordance with the USPTO's rules of practice as particularly set forth in MPEP §710.05. Applicant's representative also noted that the papers filed with the amendment included a Revocation of Power of Attorney with a New Power of Attorney and Change of Correspondence Address ("POA & CCA") which should have also been entered into PALM but were not.

As of the date of this reply, the USPTO's PAIR system indicates that the status of the application remains "Abandoned" due to a "Failure to Respond to an Office Action" and shows that the POA & CCA have not yet been completely entered into the PALM system because although the attorney information shows the undersigned representative as the attorney of record (Dennis Donahue, Reg. No. 43591), the address field has not yet been updated and instead shows the old correspondence address. Accordingly, applicant's representative repeats the requests made during the interview with the Patent Examiner that (1) the status of the application be changed from abandoned to active and (2) the address associated with Customer Number 92032 (including the email address) replace the address of the former firm.

---
